SUMMARY:

Cloud/DevOps Engineer with 3+ years of experience across AWS, OCI, GCP, and Azure. Proven track record building cloud-native infrastructure, automating delivery pipelines, and driving system reliability through CI/CD, monitoring, and IaC. Eager to bring scalable DevOps practices to fast-paced, high-impact teams.

CERTIFICATIONS:

- [AWS Certified: AWS Solutions Architect Associate](#)
- [Udacity Nanodegree: Cloud DevOps Engineer](#)
- [Oracle Cloud Infrastructure: \(OCI\) Foundations Associate](#)

WORK EXPERIENCE:

DevOps Engineer

April 2025 - June 2025

Contract, Remote

- Supported the migration of production Kubernetes clusters on AWS, ensuring smooth transition to new infrastructure with minimal disruption.
- Provisioned and managed cloud resources using Terraform, improving deployment automation and environment consistency.
- Troubleshoot and resolve post-migration issues affecting clients' services, including DNS misconfigurations, failed pod scheduling, and broken CI/CD workflows.

DevOps Engineer

Jan 2025 - March 2025

Autofactorg, Remote

- Worked on infrastructure automation by introducing Infrastructure as Code (IaC) with Terraform, reducing manual configuration errors and enabling consistent environment setups.
- Supported migration of legacy services to a more modular, container-based architecture using Docker, enhancing portability and deployment speed.
- Built and maintained CI/CD pipelines for the development team, enabling faster and more reliable deployments.
- Configured AWS cloud networking resources (VPCs, IAM roles, security groups) to improve access control and system security.
- Deployed monitoring and alerting solutions with Grafana and Prometheus to track service uptime and performance metrics.

Cloud Engineer

Dec 2023 - Dec 2024

Autofactorg, Remote

- Provisioned and managed cloud services on AWS and GCP, with a strong focus on scalability, automation, and cost optimization.
- Configured VPCs, subnets, IAM roles, and security groups to strengthen cloud networking and access controls.
- Automated user provisioning and security audits with Bash scripts.
- Supported DevOps team in container migration and log monitoring.

System Admin

April 2022 - March 2023

Startupia LLC, Remote

- Administered Linux servers, monitored uptime, applied patches, and hardened SSH access.
- Managed backups, user access, and system logs using custom Bash scripts.
- Deployed internal tools and documented infrastructure as part of IT process improvements.
- Provided technical support and troubleshooting for end-users, resolving system issues and improving overall reliability.

SKILLS:

Cloud Platforms: AWS, GCP, OCI, Azure

Infrastructure as Code (IaC): Terraform, Ansible, HCL.

DevOps & Automation: GitHub Actions, CI/CD, Docker, Kubernetes, ECS, Monitoring & Observability.

Scripting & Configuration: BASH, Python, YAML.

Security & Secrets Management: TLS/SSL, KMS.

EDUCATION:

University of Ilorin

October 2014 - October 2018

B.Sc, Biochemistry

AltSchool Africa

September 2023 - August 2024

Diploma, Cloud Engineering
